fun forgotPasswordHandler(view: View) {
    var userName = userNameId.text?.toString()
    var password: String = ""
    for (user in users) {
        if (user.userName.equals(userName)) {
            password = "Your password is ${user.password.toString()}"
            break
        }
    }
    val intent = Intent()
    intent.action = Intent.ACTION_SEND
    intent.type = "text/plain"
    intent.putExtra(Intent.EXTRA_TEXT, password)
    startActivity(intent)
    ShareCompat.IntentBuilder
        .from(this)
        .setType("text/plain")
}
```

- Emulator:** Pixel 2 API Tiramisu
- Emulator Screen:** Shows the "Create your account" screen with fields for First name, Last name, Email address, and Password, along with a "CREATE ACCOUNT" button.
- Bottom Navigation:** Git, Run, TODO, Problems, Terminal, Logcat, Build, Profiler, App Inspection
- Bottom Status:** Launch succeeded (2 minutes ago)

The screenshot shows the Android Studio interface with the following details:

- Project Bar:** Shows "Walmart" as the project name.
- Main Activity Code (MainActivity.kt):**

```
    if (User.username.equals(username) && User.password.equals(password)) {
        valid = true;
        println("valid true")
        break
    }

    if (valid) {
        println("call intent")
        var intent = Intent(packageContext: this, ShoppingCategory::class.java)
        intent.putExtra(name: "user", memberToSignIn?.userName)
        startActivity(intent)
    }

    fun createAccountHandler(view: View) {
        var intent = Intent(packageContext: this, CreateAccount::class.java)
        startActivity(intent)
    }

    fun forgotPasswordHandler(view: View) {
        var userName = userNameId.text?.toString()
        var password: String = ""
        for (user in users) {
            if (user.userName.equals(userName)) {
                password = "Your password is ${user.password.toString()}"
                break
            }
        }
        val intent = Intent()
        intent.action = Intent.ACTION_SEND
        intent.type = "text/plain"
        intent.putExtra(Intent.EXTRA_TEXT, password)
        startActivity(intent)
    }
}
```
- Emulator:** Displays the Walmart app's sign-in screen. The screen has a blue header with the Walmart logo and the text "Sign in to your account". It features two input fields: "Username (required)" and "Password (required)". Below the fields are "Forgot password?", "Sign In" (in a large blue button), and "Don't have an account?". At the bottom is an "Account Created!" button with a green checkmark icon.
- Bottom Navigation Bar:** Includes icons for Git, Run, TODO, Problems, Terminal, Logcat, Build, Profiler, and App Inspection.
- Bottom Status Bar:** Shows "Launch succeeded (3 minutes ago)" and "Event Log Layout Inspector".
